What is Streaming

How to Stream on your TV

- ▶ You **MUST HAVE** an Internet Connection!
- ▶ How big (Mbps) will depend on how many devices will be connected.
- ▶ Connect TV to the Internet
 - ▶ Any digital TV with laptop or tablet physically connected to the Internet
 - ▶ SMART TV with built in apps, these can be wired or Wi-Fi
 - ▶ Any digital TV with streaming device such as Roku, Amazon Fire, Chromecast, etc. These are wireless devices and require Wi-Fi setup in your home.
 - ▶ You may use a Blu-Ray player or console game system with internet connection.
- ▶ Some people are using only portable devices and are no longer buying televisions!

Streaming Devices Smart TVs

- ▶ Access online content without a separate, streaming device
- ▶ Approximately 76% of TVs on the market today are Smart
- ▶ Limited content available, most only include Netflix, Hulu, Amazon and YouTube (subscriptions not included in cost of TV) but the list is growing.
